Their season is later than the wild plum, and their years of heavy bearing do not appear to correspond to the plum years of the wild varieties, which serves to make them profitable for market and very acceptable for the home garden. The Forest Garden is not so good a bearer and the fruit is softer, but being earlier than De Soto, is good to plant with it. The Weaver was quite generally planted in our county about eight years ago, but I have yet to find a place where it has given satisfaction. Grapes are steadily gaining ground with our planters. Concord has again failed to ripen up sweet and fine, and I still think Warden and Moores Early better varieties for general planting. Cottage, Lindley, Agawam, and Lady are among my favorites. The Orthiem cherry, five years planted, has thus far been perfectly healthy, and this year for the first time furnished the birds a few cherries. For the past three years I have given red raspberries, black caps and blackberries thorough cultivation instead of mulch, and have had perfect failures, canes make strong growth, set wonderfully with fruit, that dried up when half grown. I have manured the ground liberally, cultivated faithfully, trimmed, pinched, covered, tied to wires; all for a wilderness of bloom and a few quarts of inferior fruit. If such experience is good for anything I hope it will be made Use of, it...
